3. Automatic barrier must be used in all timed events, and there must be a score line at the point where barrier trips.
4. The length of the score line must be determined one (1) hour before the rodeo commences.
5. Once a score line has been set in the timed events, it cannot be changed during the course of the rodeo, nor can the length of the box be changed.
6. Barrier equipment must be inspected by the judge before each timed event. If equipment is faulty, it must be replaced.
7. The Barrier Judge is responsible to change the barrier string, and see that the neck rope is on properly, at the request of the contestant. Should the barrier break at any other than its designated breaking point, the decision is up to the Barrier Judge. If the contestant obviously beats the barrier, but the staples are pulled, or the barrier rope is broken and the string unbroken, the Barrier Judge may assess a ten (10) second penalty, otherwise this will not be considered a broken barrier.

8. The Neck Rope must be fastened with string. No metal snaps or hardware shall be used on Neck Ropes in the timed events.
9. A ten (10) second penalty will be added for breaking or beating the barrier.
10. In all timed events, a barrier will not be considered broken unless the ring drops within ten (10) feet (3.05m) of the post.

Measuring the Score Line

1. Determine what “score” is going to be used. Measure out this length from the front of the “closed” chute gates. This is where to lay the “score line”.
2. Measure back (towards the chute) eighteen (18) inches (0.46m) from the score line. This is the point at which the barrier should release. Check this by putting the barrier up with a pin in the barrier ring, and run tied neck rope out through the open chute. Give the neck rope a pull, and when it reaches the point eighteen (18) inches (0.46m) behind the score line, the pin will be pulled out of the ring and the barrier released. If an eight (8) foot score is used, the neck rope should be tied off at six and one-half (6½) feet (1.94m), or eight (8) feet less eighteen (18) inches (0.46m).
3. At indoor rodeos, length of score may be no longer than the length of the roping box minus three (3) feet (0.9m), unless other arrangements are approved by the Tie Down Roping, Team Roping, Breakaway and Steer Undecorating directors or their delegates.

Re-runs and Barrier Malfunctions

The animal is released before it is asked for,
Any foul results from the barrier not working properly or,

- If a roper is fouled by a barrier (moving part of barrier or neck rope). No re-run will be granted if fouled by a non-moving object.
4. If barrier equipment hangs on animal and contestant tries the animal, she accepts the animal. If contestant pulls up, she receives the animal back.
 5. If the barrier malfunctions, the contestant must take a re-run, provided she has made a qualified run, or has pulled up and claimed her animals. If the barrier malfunctions due to human error; neck rope not being placed properly therefore not pulling the pin or pin placed wrong so that it won't release, the Barrier Judge can, at his discretion, assess a ten (10) second barrier penalty, or award a qualified time.
 6. It is a contestant's responsibility to ensure that she takes the stock which was drawn for her. If she takes the wrong stock, her run will be disqualified, and no re-runs allowed, excluding Goat Tying, where if the wrong stock is taken, a re-run will be given on correct stock.
 7. When chute run stock is claimed, the re-run must be taken right away.
 8. During any performance, if an animal in the timed events escapes the chutes or pens before it is called for by the contestants, or if the automatic barrier fails to work and stock is brought back, that animal will be returned by the Arena Director and the labor crew, during or at the end of that performance, in the same manner he was originally worked, or brought to the pens for contesting.
 9. Once official time begins, re-runs are not allowed. However, if time is missed due to the electric timer or Flagman not being ready, official time will be taken again.
 10. In the Tie Down Roping, Steer Undecorating, Team Roping and Breakaway Roping, if in the opinion of the line judge, the animal falls (falls is defined as: goes to knees or hocks) before it crosses the score line, the contestant shall be entitled to a rerun. There will be no penalty added to the rerun if, in the opinion of the judge, the contestant broke the barrier due to the animal falling. If the judge believes the contestant would have broken the barrier whether the animal fell or not, no rerun will be given. Contestant must declare themselves. In the Tie Down Roping, Steer Undecorating, Team Roping and Breakaway Roping, in the opinion of the line judge, if the animal turns between the chute and the score line, or ducks back into the box and does not allow the competitor to compete, a rerun will be rewarded on the designated spare. In the case of shoot run cattle, the competitor will take the stock next in line. The animal may be removed from the draw.

Field Flagger

1. In any timed event, if any animal escapes from the arena, the flag will be dropped and watches stopped. The contestant will get the animal back with lap and tap start, and time already spent will be added to time used in qualifying; including barriers. If time is not recorded, the decision of the Flag Judge shall be final. If the rope is on the animal, the roper will get lap and tap with the rope on it in chute.

2. When flagging timed events, the Field Flagger must position himself so as to stay out of the contestant's way.

8. All timed event stock must be run prior to performance.
9. No practicing on stock prior to or during any rodeo.
10. Fresh Team Roping stock may not be roped prior to competition.
11. Cattle in timed events must be rotated in such a manner that the first run is completed before the following run starts, and so on.
12. Livestock used for contesting shall be entirely free from effects of stimulants or hypnotics.
13. Livestock may be prodded upon request of contestant with the approval of the Stock Contractor.

Infractions of Rules & Fines

Event Rules

Tie Down Roping

1. Maximum weight for calves will be two hundred (200) pounds (90kg) for Tie Down Roping. If over two hundred (200) pounds (90kg), the event will be run as Ribbon Roping. The maximum weight is not to exceed three hundred and fifty (350) pounds (157.5kg).
2. If there must be a re-run of calves to complete a go-round, all calves must be tied down before any stock is run. If, after a go-round has been completed, a fresh calf has to be used, it must be roped and tied before the next go-round, but if extra calves have been tied at that rodeo, they will not be considered fresh.
3. Roper's horse must break the plane of the barrier and the stock breaking the plane of the score line before the contestant is allowed to throw her loop. Once calf is caught roper must tie calf and the field flag judge will drop the flag when roper declares her tie done. Time will become official when contestants Jean pockets meet the saddle provided the calf does not kick out of the tie. If rope comes off the calf while the contestant is tying it, the flag will be dropped once the roper declares her tie done and time will become official when roper steps back 3 ft.
4. Only one (1) loop will be permitted, and should the roper miss, she must retire and no time will be allowed. Roping a calf without releasing the rope from the hand is not permitted.
5. Contestant will be allowed sixty (60) seconds to get the loop on the calf and complete the run. Catch as catch can rule shall apply.
6. Contestants must adjust the rope and reins in a manner that will prevent the horse from dragging the calf. Contestants must receive no assistance of any kind from outside.

7. The rope must be tied hard and fast. Contestants must dismount, go down rope, throw calf by hand, and cross and tie any three (3) feet. If the calf is down when the roper reaches it, the calf must be let up to its feet and thrown by hand. If the roper's hand is on the calf when it falls, the calf is considered thrown by hand. The rope must hold the calf until the roper gets her hand on the calf. The tie must hold until passed by the Judge, and the roper must not touch the calf after giving the finish signal with both hands and until after the Judge has completed his examination. If the tie comes loose, or the calf gets to his feet before the tie has been ruled a fair one, the roper will be marked NO TIME. The untie man must not touch the calf until signaled to do so by the Flag Judge.
8. The roper will be penalized ten (10) seconds if a calf is jerked down by the horse with the first jerk of the rope which is used when the calf is caught. A jerk down means that a calf is jerked over backwards (with all 4 legs leaving the ground) between 10 and 2 o'clock on the standard clock and at 150 degrees.
9. If the horse drags the calf, the Field Flag Judge may stop the horse. Penalty for such offence can only be assessed by the Flag Judge. The horse cannot drag the calf more than a total of 10 feet or the contestant will be flagged out.
10. Once the calf is tied, the rope will not be removed from the calf. A roper cannot touch her horse or rope, or encourage in any way her horse to back up, until remounted, or disqualification will result. If the rope is free and clear from the calf during the run, roper is free and clear to do with equipment as need be.
11. Regardless of circumstances, the roper will be disqualified for removing the rope from the calf after signaling for time, until the tie has been passed on by the Field Judge.
12. A maximum of three (3) people are allowed to line stock, standing at the score line in the centre of the heading box, three (3) feet apart, as per stock contractor's request.
13. In inclement weather, where arena conditions are questionable, it will be at the judge's discretion to continue the event.

Ribbon Roping

1. The ribbon must be secured between the calf's hipbones. The calf must be on its feet when the ribbon is removed.
2. If the ribbon comes off due to no fault of the contestant, the re-run is to be made at the end of that performance, or end of that particular section.
3. Time is to stop when the contestant raises the ribbon above shoulder level.
4. All other preceding Tie Down Roping rules apply to this event.

Break-Away Roping

1. Breakaway calves shall be a minimum of one hundred and eighty (180) pounds, to a maximum of three hundred and fifty (350) pounds.
2. Horns on calves are not to exceed 2 inches long in length.
3. Animals used for this event should be inspected, and objectionable stock eliminated.
4. There will be a thirty (30) second time limit.
5. Break-away competitors must come out of the Tie Down Roping box.
6. The same barrier as Tie Down Roping will be used. Once the score line has been set in the timed events, it will not be changed in that "go", nor can the length of the box be changed.
7. The rope must be tied to the horn in such a manner as to allow the rope to be released from the horn when the calf hits the end of the rope. This will be the contestant's responsibility.
8. The rope must be tied to the horn with a string, and may not be run through the bridle, tie-down, neck rope or any other device. Ropes are to be tied to the saddle horn with nylon string. A knot must be at the end of the rope with the string tied to the knot. There will be no tail to the rope.
9. Contestants must use the colored breakaway string supplied by C.G.R.A. and the tie will be inspected by the Event Director prior to the contestant roping (or competing).
10. A cloth of brightly colored, including white, material must be attached to the rope at the saddle horn, and so the judge can tell when the rope breaks from the horn.
11. A contestant must be on her horse. Her horse must break the plane of the barrier and her stock breaking the plane of the score line before the contestant is allowed to compete.
12. The rope must be released from the contestant's hand to be a legal catch.
13. The "catch as catch can" rule shall apply, meaning that the loop may draw up on any part of the calf's body, after the loop has passed over the calf's head, to break the string from the horn.
14. Time shall be taken between two (2) flags.
15. Only one (1) loop will be permitted, and should the roper miss, she must retire and no time will be allowed. Roping a calf without releasing the rope from the hand is not permitted.
16. The contestant will receive no time should she break the rope away from the saddle horn by hand. However, if the rope should dally around the horn, the contestant may ride forward, undally, and then stop her horse to make the rope break away.
17. If the field judge flags out a roper that still legally has one loop coming, the judge may give the same calf back, lap & tap, plus time already elapsed.

Goat Tying

1. Goat order will be drawn prior to the rodeo.
2. Fresh goats must be tied down three (3) times, prior to the show.
3. The starting gate or gates will remain the same throughout the entire rodeo.
4. The goat is to be tied to a stake with a rope ten feet (10) in length, from snap to snap.
The stake is to be pounded completely into the ground with no part of it visible.
5. The goat peg must be a minimum of twenty-five (25) feet from any fence.
6. The score line to the goat peg will be one hundred (100) feet.
7. Contestant is allowed a running start, and will be required to run in the arena only when an acceptable, centrally located gate or gates safely permits, or by event directors approval.
8. No circling horse in the arena. One spin or pivot in either direction is acceptable if centrally located gate is not used. Once the contestant has crossed the score line the time has started. There is no exception to this rule.
9. Time will start when the horse's nose crosses the starting line.
10. Time will stop when the goat tyer signals the completion of the tie by letting go of the rope/string with both hands.
11. The goat must be held by the collar at the end of the rope in a vertical position from the starting line until time begins. Goat holders cannot be a contestant in the category competing (Juniors cannot hold for Junior goats, but can hold the Ladies' goats)
12. The contestant must be mounted on a horse and must ride from the starting line to the goat, dismount from her horse, flank the goat by hand, cross, wrap and tie at least three (3) feet together with a leather/cotton rope or pigging string. No wire is to be used in the goat string.
13. To qualify as a legal tie, there will be at least one complete wrap around at least three (3) legs, and a half hitch, hooley or knot. The contestant must tie the goat by hand with no pre-made wraps, coils, knots, hooeys or half hitch.
14. If the goat is down when the contestant reaches it, goat must be elevated high enough that it has the opportunity to regain its feet and then stand clear of the goat when the tie is finished.
15. If contestant's hand is on the goat when goat falls, the goat is considered thrown by hand.
16. Once a contestant has signaled her tie complete, she may not touch the tie or the goat. Any attempt to enhance competitive opportunity after signaling for the time will result in disqualification.
17. The contestant must move back three (3) feet from the goat before the judge will start the six (6) second time limit on the tie – for the goat's legs to remain crossed and tied. If contestant gets rope that is holding goat wrapped around her leg, she may ask the

judge if she can remove it. After getting permission from judge, removing rope and moving back three (3) feet her six (6) second time limit will start. While the judge is performing the six (6) second time limit, the contestant will make no gestures, motions or noises to distract the goat. This will be considered trying to make an unfair advantage and will result in disqualification.

18. Legs must remain crossed and secure for six (6) seconds after completion of tie. While the judge is performing the six (6) procedures, the contestant will make no gestures, motions or noises to distract the goat. This will be considered trying to make an unfair advantage and will result in a disqualification.
19. Should the horse run over, or touch the rope, with or without contact to the goat, the contestant will be fined ten (10) seconds. If the violation occurs after the flagman has signaled for time, there will be no penalty.
20. If the goat should break away because of the fault of the horse, the contestant will be disqualified.
21. If the goat gets loose from tether or the peg comes out from the ground before the contestant touches the goat, a rerun will be assessed.
22. If the horse/rope violation is declared but timer fails to get time, and a rerun is awarded. A ten (10) second penalty will go with contestant on rerun.
23. A contestant may untie her own goat, after the allotted time has elapsed.
24. No goat will have more than three (3) consecutive ties made on them. Three paid ties (non-notified turnouts and doctor releases included) will constitute a run on the goat. Each goat must be "run" before any goat can be "run" the second and subsequent times. In no situation should the goat order of competition change from the original drawn position.
25. In the event that stock is injured, and there is no spare available, the spare should be pulled from another goat tying event. (I.e. Use a junior goat to fill the gap in the senior event, or vice versa.)
26. Both judges must be on the ground for flagging. The Field judge must move to be able to clearly see the contestant complete the tie.

Steer Undecorating

1. Animals used for this contest should be closely inspected, and objectionable ones eliminated. Stock must be predetermined by the Stock Contractor and Director at least one (1) hour before show time. Horned cattle may be used for this event, with a maximum of twelve (12) inch horns with recommendation to have horns tipped. The same cattle cannot be used for both Steer Undecorating and Team Roping.
2. To receive qualified time, the rider must be mounted when the ribbon is taken off the steer.
3. The ribbon must be a piece of cloth, ten inches by ten inches (10" x 10"), bright in color, and placed between the shoulders of the steer.
4. Once clear of the chute, contestants may take the ribbon from either side of the steer. The Undecorator must come out on the left side of the chute, and the hazer must come out on the right hand side of the chute.
5. Time will not be taken until the ribbon is raised at least to the contestant's shoulder height, however, if a contestant raises her hand above the shoulder without the ribbon, they have declared themselves, and they will receive a no-time.
6. If the ribbon falls off through no fault of the contestant, she will receive a re-run. If the barrier was broken on the first run, the ten (10) second penalty will be assessed to the re-run time.
7. If the animal gets out of the arena in any way time will be stopped, and the contestant will get the animal back lap and tap from the time the animal leaves the arena.
8. If the rider falls off, the horse trips or falls, "No Time" will be given unless it is within the thirty (30) second time limit, in which case the rider may re-mount and continue.
9. Disqualification may result from:
 - a. undecorating the steer when cornered;
 - b. tampering with the steer or chutes;
 - c. the hazer undecorating the steer
 - d. any unnecessary delay caused by the contestant or hazer.
 - e. If the hazer bats steer or contestant's horse, contestant will receive no time.
- 10 Hazer's will be allowed to enter one (1) rodeo as a Local. They must purchase a membership to compete in any other all-girl rodeo in that season.
11. Any violation of any rule by hazer will disqualify the contestant they are helping. Failure to observe this rule will result in no time.

Team Roping

1. Prior to the rodeo, it will be decided by the Event Director, if the cattle will be roped as muley or horned cattle.
2. Contestants may enter twice so long as the same combination of ropers is not used (no cross entering). Both ropers must be named when entering. Entry fees per person will be the same as in other events.

3. There will be a thirty (30) second time limit before penalties.
4. Each team is allowed two (2) loops in all.
5. The header will start from behind a barrier.
6. Time will be taken when the steer is roped, both horses facing the steer in a reasonably straight line with both feet on the ground, with ropes dallied and tight. The steer must be on its feet when either head or heel rope is thrown.
7. Once a steer has been roped and the Flagman drops the flag, the ropers must hold their dallies until the Flagman has had a chance to inspect the head and heel loops and dallies. If the loops and dallies are not legal the Flagman will flag the team out.
8. Heelers 50 years of age and older have the option to tie on versus dallying.
9. Roping the steer without releasing the rope will be considered a NO TIME
10. Legal catches are:
 - a. both horns;
 - b. half a head;
 - c. around the neck;
 - d. any heel catch behind the shoulder is legal if the rope goes up the heels or;
 - e. one hind foot, penalty of five (5) seconds.
11. Illegal catches are:
 - a. if Hondo passes over one (1) horn, and loop over other horn;
 - b. figure eight (8) on both horns;
 - c. belly catch - defined as when the loop passes over the head and front feet or;
 - d. horn or neck catch with any feet in the loop.
12. The Flagman will immediately flag out the roper as soon as a front leg is picked up in the head loop.
13. If the heeler ropes a front foot or feet in the heel loop, this is a foul catch. Neither team roper is allowed to remove the rope from the front feet by hand, however should the front feet come out of the heel loop by the time the Flagman drops the flag, time will be counted.
14. Cross Firing - The header must have enough control of the steer to have turned the steer's body toward the header, and the steer must have made one (1) full hop out of the bend before the heeler's delivered loop makes contact with the steer. If not, this is considered "cross-firing", and the team will be given a "No Time".
15. Steers must not be handled roughly at any time, and ropers may be disqualified if in the opinion of the Field Judge they have intentionally done so. In the event of intentional injury or cruelty to an animal, contestants will be flagged out.
16. If either roper dismounts, the team will be flagged out.
17. A broken rope will be considered as a used loop. A dropped rope will be considered as "No Time".
18. All ropes must be taken off in the catch pen and not in the arena.

Barrel Racing

1. The Barrel Racing event may be run on a horse or pony of any size.
2. A horse can be ridden more than once in a go-round and/or performance by different girls, but a girl may only ride one (1) horse in a go-round. (I.e. A contestant may change horses between go-rounds.)
3. A C.G.R.A. approved race is open to members and non-members, unless closed to members only at the request of the Show Management.
4. A Junior member shall be able to compete at all Ladies approved Barrel Races, unless there is a Junior Barrel Race at the same show, in which case, the Junior is only able to run in the Junior Barrel Race. Juniors competing in the Ladies Barrel Race event are competing for prize money only.
5. Where necessary, back-to-back runs will be allowed. This will be at the discretion of the Board of Directors.
6. The first 3 Ladies and Junior Barrel Racers in the program are required to assist in taking down the poles at the completion of the event. The last 3 Ladies and Junior Barrel Racers in the program are required to help set up the poles and timer prior to the start of the event. You may appoint someone to do this for you but you are responsible for the appearance of the worker. Failure to do so will result in the \$25 fine. This will be enforced by the Event Director.
7. Barrels are to be forty-five (45) gallon (202.5 liter) metal drums.
8. Barrel pattern size and measurements must be posted, with a copy to the judge(s).
9. Regulation barrel distances are ninety (90) feet from barrel 1 to 2, and a one hundred and five (105) foot arc from barrels 1 to 3, and 2 to 3, with a sixty (60) foot score line, and a minimum stopping distance of forty-five (45) feet with a closed gate, or thirty (30) feet with an open gate or safe centre alley.
10. If the size or condition of the arena does not allow for the regular pattern, then the pattern may be altered to suit the arena, as long as the distances off the fences are a minimum of fifteen (15) feet for barrels 1 and 2, and a minimum of twenty-five (25) feet for barrel 3, and there is a minimum of forty-five (45) feet to stop with a closed gate, or thirty (30) feet to stop with an open gate or safe alley.
11. The barrels and starting line must be permanently staked for each go-round. If any distances should be changed, or barrel measurements are lost, during a go-round, then split monies must be paid.
12. Whenever split go-rounds are run, barrel distances must be measured with a measuring tape. When the barrels are being marked, a Judge should be present to witness the figures used and recorded as the measurements, to be turned into the Secretary and used the next day. The paper is to be signed by the girls and Judge where possible.

13. Once barrel markers have been placed, no practicing is allowed on the course marked. For the purpose of practicing, barrels must be placed at least fifteen (15) feet (4.6m) away from the markers.
14. No contestant shall run a barrel pattern in the arena within one (1) hour of show time
15. If, during a performance, it is determined that the barrels were not placed properly on the permanently staked markers, then those contestants who have already made a run on the improperly placed barrels must make a re-run on the official pattern.
16. A running or standing start can be used depending on the arena conditions, and as determined by the Arena Director. In no case may a contestant cause any unnecessary delay in starting the race. Infraction of this rule may result in disqualification.
17. Arena gates are to be left open for all contestants, or closed for all contestants, during a race. The decision is to be made before the race starts, by the Director, or designated Director, depending on the arena conditions.
18. Either barrel one (1) or two (2) may be taken first. A contestant may hang onto the saddle, or use both hands on the reins if she so desires.
19. When a contestant knocks over a barrel, or goes off course, she must complete the course at race speed. She cannot return to the starting line and start again. Infraction of this rule may result in a fine.
20. A five (5) second penalty will be assessed for each barrel knocked over.
21. Western equipment must be used. The snaffle bit will be accepted as Western equipment
22. There will be no batting allowed in front of the shoulder.
23. Horses are to be timed on the nose, both at the start and finish of the race. The contestant must complete the race on the horse, in order to have her time count.
24. At any C.G.R.A. approved event, Judges are required to flag the barrel racing, whether the electric timer is used or not. When the electric timer is used, Judges shall watch to see that no one walks in front of the electric eye, and shall further make sure that each barrel racer / pole bender completes the racing pattern properly.
25. The electric timer must be used whenever available. Times are to be recorded to the one one-thousandth (1/1000th) of a second. Barrel Racing must also be timed with two (2) stop watches to one one-hundred (1/100th) of a second, even if the timer is used. Both sets of stop watch times are to be recorded along with the electric eye time. When the electric timer is used, and a minority of the contestants are missed, the stop watch times plus "0" are to be used as the official times for the contestant missed (i.e. 16.19 would become 16.10). Should the timer fail to operate for more than half (½) of the contestants, then the stop watch times will be considered as the official times for all contestants in that go-round.

26. If stop watches alone are used to time the barrel race, they are to be recorded to the one one hundred (1/100) of a second, and there shall be no less than two (2) watches.
27. Once official racing time begins, re-runs are not allowed. However, if time is missed due to the electric timer or Flagman not being ready, official time will be taken again.

Pole Bending

1. The Pole Bending pattern is to be run around six (6) poles.
2. Poles must be straight in line.
3. Poles shall be set on top of the ground, six (6) feet in height, with a base no larger than fourteen (14) nor less than twelve (12) inches in diameter. Poles must be rubber solid base with a hollow PVC pipe.
4. No flags are to be used on the poles.
5. The distance from the starting line to the first pole shall be twenty-one (21) feet, and spacing between the poles shall be twenty-one (21) feet and there is a minimum stopping distance of forty-five (45) feet with a closed gate, or thirty (30) feet with an open gate or safe centre alley. Start line must be permanently staked for each performance.
6. Horses are to be timed on the nose, both at the start and finish of the race. The contestant must complete the race on the horse, in order to have her time count.
7. A horse may start either to the right or left of the first pole, and then run the remainder of the pattern accordingly.
8. Touching poles is permitted by horse or contestant.
9. Knocking over a pole carries a five (5) second penalty per pole.
10. If, during a performance, it is determined that the poles were not placed properly on the permanently staked markers, then those contestants who have already made a run on the improperly placed poles must make a re-run on the official pattern.
11. If the wind blows a pole, or poles, over at a point in the run which will interfere with the running time, the contestant will be subject to a re-run.
12. The Timed Event Judge will not flag a contestant out if the run is not legal, until a time is recorded.
13. Failure to follow the Pole Bending pattern will receive a "No Time". A "broken pattern" shall be defined as breaking their forward motion to retrace their tracks to finish the pattern, and/or passing the plane of the pole on the "off" side. Example - should a contestant run by a pole and have to back up or turn around and retrace their tracks, this would be considered a broken pattern. Also, if a pole is knocked down, and the contestant does not follow the weave pattern around the original base position of the fallen pole, it is considered a broken pattern.
14. If the horse re-crosses the starting line at any time before the pattern is completed, the pattern will be considered broken and the run will receive a "No Time".

15. If the contestant's horse breaks the timer light by backing through before starting the pattern, time will be considered started.
16. At any C.G.R.A. approved event, Judges are required to flag the pole bending, whether the electric timer is used or not. When the electric timer is used, Judges shall watch to see that no one walks in front of the electric eye, and shall further make sure that each pole bender completes the racing pattern properly.
17. The electric timer must be used whenever available. Times are to be recorded to the one one-thousand (1/1000th) of a second. Pole Bending must also be timed with two (2) stop watches to one one-hundred (1/100) of a second, even if the timer is used. Both sets of stop watch times are to be recorded along with the electric eye time. When the electric timer is used, and a minority of the contestants are missed, the stop watch times plus "0" are to be used as the official times for the contestant missed (i.e. 16.19 would become 16.10). Should the timer fail to operate for more than half (½) of the contestants, then the stop watch times will be considered as the official times for all contestants in that go-round.
18. If stop watches alone are used to time the race, they are to be recorded to the one one-hundred (1/100) of a second, and there shall be no less than two (2) watches.
19. Once official racing time begins, re-runs are not allowed. However, if time is missed due to the electric timer or Flagman not being ready, official time will be taken again.
20. The first 3 Ladies and Junior Pole Benders in the program are required to assist in taking down the poles at the completion of the event. The last 3 Ladies and Junior pole benders in the program are required to help set up the poles and timer prior to the start of the event. You may appoint someone to do this for you but you are responsible for the appearance of the worker. Failure to do so will result in the \$25 fine. This will be enforced by the Event Director.

Charles Young Memorial Cow Riding

1. Where possible, the number of cows should equal or be greater than the number of contestants. If there are more contestants than cows, all animals are drawn, and then all cows are put back into the draw for the remaining contestants and re-ride cows.
2. Whenever possible, cows or steers having horns must be kept out of the draw. Cows should be a minimum of two (2) years old, and must be a minimum of nine hundred (900) pounds. Cows must be consistent and if they do have horns the tips must be removed to the size of a toonie.
3. Flanking stock will be left to the discretion of the Stock Contractor, and each contestant shall be informed of this decision before the event by the Rodeo Manager or Event Director.
4. There shall be a Flagman and two (2) judges. The judges decisions at all times are final.
5. No more than two (2) persons may be on the chute to pull the contestant's rope.

6. Unless requested by the rider, no stock can be “hot-shotted” after the rider sits down.
7. When the timers are unable to be above the chutes, the Flagman must be used to flag the beginning of the ride.
8. Contestants will ride for eight (8) seconds, with time to start when the animal’s inside front shoulder passes the plain of the chute.
